**Subject:** APPROVE THE CONSENSUS PLAN

I am a volunteer Paramedic, with over 35 years experience in public safety. I want to let you know that I support the Consensus Plan to resolve the radio interference problem we've seen over the past few years. I feel very strongly about this and want to urge you to make your recommendation to the Commissioners based on technical merits. Don't cave in to pressure being applied by Verizon.

Please recommend approval of the Consensus Plan.

Sincerely,

CHARLIE
